PUZZLES SET OIL MEN.

Mexico City, June 10.—Oil men in Mexico City were surprised by President Obregon's attack on the oil interests at Nogales, as they believed that the oil companies were enjoying better relations with the Mexican Government than ever before. The President had previously referred to an English company, charging that if had helped the rebels under de la Huerta when they were in possession of Vera Cruz, Puerto -Mexico and Tuxpam.

American oil men are at a loss to understand what other oil company could be accused of obstructing progress in Mexico, and point out that one American company made a payment on advance taxes to the Mexican Government amounting to several million dollars in order to relieve

the financial stringency.
It is rumoured that the Charge des Archives of Great Britain, Gordon Cummings, has been requested to leave Mexico. This runiour is impossible to confirm, but is accepted by those in a position to know. Relations between the Mexican Government and Mr. Cummings have been far from friendly for months.

Hope for settlement of the lengthy dispute between the Mexican Eagle Oil Company and its employes seemed on the verge realization to-day, representatives of the Regional Federation of Labour having reached an agreement with the local manager of El Aguila.

Resumption of work is expected as soon as the combany's employes in Tampico ratify the agreement, the provisions of which have not been made known.

Mr. Perdue, Assistant Directo of Criminal Intelligence, appeared to prosecute and said that he understood that it was admitted that the defendant was a non-registered medical practitioner.

Mr. Russ said that his plea was not guilty and Mr. Pordue sai that in that case he would have to apply for a remaind for evidence to be brought that the defendant name was not on the register, also expert evidence would be called to show that the treatment of the ey was a part of the practice medicine.

CHICAGO MURDER.

STATEMENT BY FATHERS OF

ACCUSED. The fathers of Nathan Leopold and Richard Loeb, the two well-todo young University students who have been indicted for murder and kidnapping in connection with the death of Robert Franks, the 14year-old son of the millionaire watch manufacturer, Jacob Franks, have issued a joint-statement announcing that there will be "no undue use of money to save their sons from the gallows," but that only such defence as every person is entitled to will be made. The statement goes on to say that, assuming the facts to be substantially as published, then the only proceeding they favour is a simple and solemn investigation.
